screens

Online Shop: <https://officestock.co.za>

The use of screens in the office environment facilitate acoustic and visual privacy, allowing for concentration, productivity and a personalized workspace. Various screen options are available, which on the one hand, offer aesthetic solutions, by choice of options, or a vast range of fabric options or introducing elements like glass, screens with vinyl print, or lexan, which offers a sense of openness in the working environment.

Practical solutions, like pinnable materials, whiteboards, magnetic boards and accessory rails with various components can add functional value to workstations.

reception counters

Online Shop: <https://officestock.co.za>

A reception counter should act as a business card of your company, being the first contact with the public and the outside world.

Hospitality, efficiency, image and personality are characteristics of a system designed to meet the needs of representation in a modern working environment.

high density filing system

Online Shop: <https://officestock.co.za>

The high density filing system (hds) represents a sophisticated combination of functional space-saving design and complete flexibility.

Installing the high density filing system allows you to minimize floorspace requirements, Yet greatly increase storage capacities. At the same time direct access is also increased, permitting substantial increases in efficiency.

The space-beating concept of vertical moving cabinets is the key to the efficiency of the high density filing system (hds).

chain drive handle

The modern design concept permits the technotube high density filing system to be located on or over, any floor or other surface. This makes installation simple, less costly and creates very little disturbance.

A full range of panel finishes are available to permit the unit to reflect its integral role in the office environment. The configurations of the technotube high density filing system allows immediate and direct access from a minimum of 40% (in the largest format) to 100% in a single cabinet uncompromising quality in construction and design optimizes the life of the cabinet. From individually lockable drawer of shelves to a complete cabinet, the entire system can be kept secure.

Modular construction allows for these options to be easily changed at any time, without damage to the basic cabinet
